This office is currently maintaining old files on the following projects which were initiated by your agency. Since there has been no activity in some time, we are presuming the projects are no longer viable.

Please review your files for each of these projects. If we do not hear from you on the following list (with estimated dates when we can expect further material) by November 18, 1986, the file will be closed.

The state-wide program of storage space reductions is motivating us to only maintain files for viable projects.
